Things to think about before your photo session.

We will photograph you in several outfits during your photo session however; feel free to bring extra outfits so that you have plenty to choose from. Long sleeve solids or very subtle prints are usually most flattering.

Here are some tips to help you choose your outfits.

- Don't mix light colors and dark colors in the same outfit.
- Pick one dark colored long sleeve sweater or shirt for a traditional head & shoulders photo.
- Bring a variety of styles, casual, formal and some color or theme outfits such as country, rock star, etc.
- Make sure your clothes fit properly and that wrinkles are pressed out. This will be apparent in your final photos.
- Props can help showcase your personal style and or interests. Be sure to bring some of your own props such as uniforms and gear, varsity jacket, guitars or other instruments.

I want your photos to reflect your own personality or style so let's have some fun and be creative.

Backgrounds

If you like medium to dark backgrounds, dark clothes look best and create a more dramatic look. If you prefer light colored backgrounds Medium to light colored close look best.
